

## **CLAIMS**

1

A cosmetic makeup kit comprising:

A backing portion within the kit;

at least one receptacle on said backing portion, said receptacle being shaped

and arranged to provide an image representing a portion of a human face; and

Makeup material contained in said receptacle, the material in said receptacle being chosen for use on the portion of the face which that receptacle represents.

2

The makeup kit of claim 1 wherein there are a plurality of receptacles on said backing portion, each of said receptacles being positioned and shaped to provide an image representing a different portion of a human face, material being contained in each of said receptacles chosen for use on the portion of the face that the receptacle represents.

3

The makeup kit of claim 2 wherein the images are in the form of a mask containing cutout shapes mimicking parts of a face, the cosmetic being retained in the receptacles under said mask.

4

The makeup kit of claim 2 wherein the receptacles are formed in the backing portion;

5

The makeup kit of claim 2 wherein the receptacles are attached to the backing portion..

6

The makeup kit of claim 1 wherein said kit is contained in a carrying case.

7

The makeup kit of claim 6 wherein said carrying case has a cover and a handle.

8

The makeup kit of claim 6 and including a mirror mounted in said carrying case.

8

The makeup kit of claim 8 wherein said makeup kit further includes a container for storing cosmetic applicators.

**A makeup kit comprising:**

A backing portion on the inside of said kit having a plurality of receptacles thereon;

A mask having cutout portions each of said cutout portions pictorially representing a different portion of a human face; and

A cosmetic material contained in each of said receptacles for each of said different portions of a human face;

The cutout portions of said mask being positioned so that each of said cutout portions overlies a receptacle which carries the cosmetic for a corresponding portion of the human face.

The makeup kit of claim 9 wherein said kit is contained in a carrying case.

The makeup kit of claim 10 and further including a receptacle formed in said kit for storing cosmetic applicators.

The makeup kit of claim 10 and further including a mirror mounted in said kit.
